Qmlativ Configuration Review:

As of April 2025, programmatic updates were implemented for the Child Nutrition Eligibility & Education Benefit Application (CNEEB) in Qmlativ. Districts with any CEP (Community Eligibility Provision) entities must update their configuration to fully implement this functionality.

1. Confirm configuration (District Level per School) has been updated to identify whether the school participates in CEP for the 2025-2026 School Year.
2. Confirm that the configuration (District Level) for the online application process has been updated to reflect the latest CNEBB logic.
