Subscription to Student Communications

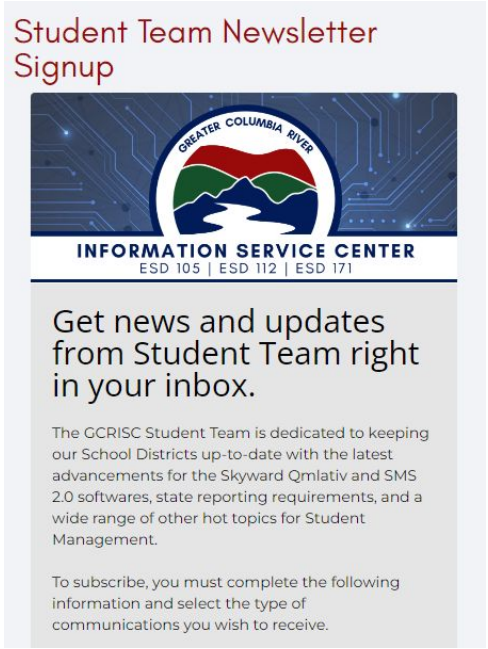
Visit the GCRISC website to find all your Student-related resources!

Under the Resources tab, staff can sign up to receive newsletters, alerts, and informational messages specific to the product lines they support.

Recently migrated to Qmlativ? Be sure to visit the website and sign up for the Qmlativ Newsletter and Alerts so you don't miss important updates, helpful information, and announcements!

If you're already receiving SMS newsletters, you can unsubscribe at any time by using the unsubscribe link in the footer of those emails.

New staff members will need to select their subscription preferences to begin receiving product line-specific communications.



Security

Frequently asked questions:

“Why don’t I have the same options or see the same information as someone else?”

Great question!

The options and information you can access in Qmlativ are based on your assigned security permissions, which are determined by your district administration. These permissions help ensure staff have access to the tools and information needed for their roles.

If you feel you need additional access to perform your job responsibilities, please reach out to your district’s Security Administrator to discuss your needs.

Course Outlines and Prerequisites:

PDC Recommended Prerequisite:

- Health Services General Course- WA- 9.6 hours
- Health Records Entry Quick Start Course - WA- 2.4 hours
- Fundamentals of Student Management Setup & Processes Quick Start Course-WA- 1.6 hours
- General Navigation Student Records Quick Start- 1 hours

If you do not have a PDC Account or the above listed courses, please reach out to your security admin.

Description:

- Get ready to explore the Health Module! In this session, you'll learn how to enter, update, and maintain student health records within the Student Profile while discovering the tools and features available to support your district's student health services. We'll also dive into Health Condition Codes and explore the Assessment of District Student Health Services feature, including its interactive interface. By the end of this session, you'll have a better understanding of how these tools work together to help you manage student health information with confidence!

Course Outline:

1. Welcome & Health Module Overview
   - General home screen navigation
   - Navigating student health information in Qmlativ
2. Student Health Records
   - Entering student health records within the Student Profile
   - Updating and maintaining health information
   - Reviewing available health record options
3. Health Module Features
   - Exploring key Health Module features and functionality
   - Understanding how these tools support student health services
4. Health Condition Codes
   - Reviewing available Health Condition Codes
   - Understanding how condition codes are used within student health records
5. Assessment of District Student Health Services
   - Exploring the assessment feature
   - Navigating and using the interactive interface
   - Reviewing available information and functionality

Duration/Needs

- 3 hours/Training Database or Production Database
