

Manipulatives in the Elementary Classroom

Presented by: Brenda Dunn

January 24th, 2019

4:00-7:00pm

Educational Service District 123

3924 W Court St. | Pasco, WA

This workshop will focus on using math manipulatives that support students' cognitive process and improve student understanding. Participants will:

- Receive and discuss research around math manipulatives
- Discuss how manipulatives can be used as formative assessments
- Experience hands-on activities using manipulatives
- Have time to explore lessons that connect to intended outcome
