

Celebrate K! Conference

Tuesday-Thursday, July 16-18, 2019

Kindergarten is an important element of our state's strategy for improving student outcomes and closing the achievement gap. Much happens during the kindergarten year that makes it special, including welcoming families into the K-12 system, facilitating student success in a developmentally appropriate, standards-based environment, and forging "school readiness" partnerships with the early learning community. Celebrate K! is offering three days of content targeted specially for Kindergarten and preschool.
