

Observation & Discussion of Mathematical Teaching Practices

June 24th - 28th ♦ 8:00^{AM} - 12:30^{PM}

ESD 123 Cascade Room 3 | 3924 W. Court Street, Pasco

Be part of the ESD 123 annual studio-type professional development!

View a live classroom setting for the purpose of studying researched based teaching strategies that reach students with disabilities and English Learner students.

This PD is designed to promote the use of the 8 Mathematical Teaching Practices and becoming collaborative learners of our practice of teaching.

- Observe and discuss instructional strategies
- Engage in high quality instruction
- In-depth exploration of your own practices
- Strategies to support the Mathematical Practice Standards

Elementary Classroom Focus

Presented by Brenda Dunn &
Dr. Annick Rougee of WSU Tri-cities

STEM Clock Hours Available

Workshop Cost: **Free**

Snacks Provided

***Training qualifies for the iGrant Form Package 843
for schools identified for Comprehensive Support**
