

2019-2020 NGSS/STEM Leadership Network

ESD 123 and the SE LASER Alliance, present the 2019-20 NSLNL, built upon years of high quality professional development for which these agencies are known!

The NSLNL brings school/district teams together to:

- ◆ Experience integrated STEM **adult learning experiences**
- ◆ Engage in research through **reading and collaboration**
- ◆ **Action Plan** for STEM/ Science implementation
- ◆ Focus on Next Generation **Science Standards** (Washington State Science Learning Standard)
- ◆ **Network** with colleagues throughout the SE Washington Region

Teams who attend the NSLNL should include an administrator (building or district level), the Science Fellow(s), and teacher leaders strategically chosen for greatest impact. Sessions will have a strong focus on equity and the collaborative culture of shared responsibility between teacher leaders and administrators.

NSLNL Logistics:

- Meeting Dates:
 - **Oct. 22** (elementary) and **Oct. 29** (secondary)
 - **Jan. 14** (elementary) and **Jan. 28** (secondary)
 - **Mar. 10** (elementary) and **Mar. 24** (secondary)
- 9:00 AM -3:00 PM
- No cost for registration
- Integrated STEM Clock Hours Available
- **BRING YOUR OWN LUNCH** (working lunch)
- **TEAMS**

We strongly encourage districts and/or schools to attend in teams that include Science Fellows, Emeritus Fellows, Administrators, CTE and Teacher Leaders. Math, Special Education and ELA teammates are always welcome!

NSLNL Meeting Areas of Study:

- Implementing Next Generation Science Standards
- Managing Change for NGSS
- Developing Science and STEM Leadership Strategies in Districts
- NGSS/Climate Science Resources
- Integrated STEM as part of NGSS
- Engineering and Design
